SUMMARY

A Computer Science Engineering graduate with strong foundation in Java, HTML, CSS, JavaScript, SQL database and Frameworks like SpringBoot and Hibernate. Proficient in Software Development Life Cycle (SDLC) and Object-Oriented Programming (OOP). Strong problem-solving and communication skills, adept at adapting to new technologies and delivering quality solutions, with the ability to work independently and collaboratively.

EDUCATION

Prof. Ram Meghe College of Engineering and Management 2020 - 2024
Bachelor of Engineering — Computer Science — CGPA: 8.98

Municipal Junior College of Science 2019 - 2020
Higher Secondary Education — 76.15%

Innovative Minds School of Excellence 2017 - 2018
Senior Secondary Education — 85.2%

SKILLS

Programming Languages: Java, Python

Web Technologies/Frameworks: HTML, CSS, JavaScript, React JS, Spring Boot, Hibernate

Tools: Eclipse, Visual Studio Code, Jupyter Notebook, MS Excel, MySQL, Postman, GitHub

Database: SQL

Soft Skills: Leadership, Communication, Teamwork, Problem-solving, Analytical Thinking, Time Management

PROJECTS

Digital Customer Onboarding (DCO)

- Built a web application for remote bank account opening with secure OTP-based verification and document validation.
- Implemented REST APIs using Java, Spring Boot, Hibernate, and MySQL for seamless data processing.
- Integrated third-party SMS and email services for user authentication and notifications.
- Designed an intuitive user interface with HTML CSS and React reducing onboarding complexity for end-users.

Movie Mania

- Developed a modern movie search web app using React, integrating the OMDb API to fetch real-time movie data.
- Implemented advanced search, favorites management, and responsive design for a seamless user experience across devices.
- Optimized API usage to display up to 50 movies per search, ensuring fast and relevant results for users.

Book Recommendation System

- Developed a Machine Learning project using Collaborative and Content-based filtering with KNN for similarity analysis.
- Built a responsive Python-Streamlit app with 6+ recommendation modes and interactive visualizations to enhance user experience.
- Achieved Recall@5 of 31% and Recall@10 of 42% on a dataset of over 10,000 interactions, demonstrating strong performance in top-N recommendation accuracy.

CERTIFICATIONS

Scaler: Software Development Course (Ongoing)

Postman: Postman API Fundamentals Student Expert

Coursera: Building Scalable Java Microservices with Spring Boot and Spring Cloud

Udemy: Java Programming, Web Development Course
